

FRIENDS IN COOL PLACES

Well, I have a plan
for my friends and I,
Because I've been alone for too long

I'll pack all my things
And then the phone rings
I don't want to be bored any more.

I'll meet you in a camp
Just for you and I
Where I hope I will see you again

We'll have a great time
It will be yours and mine
Never hear me complain.

**'Cause I've got friends in cool places
Where the sun always shines
and the wind chases my blues away
And I'll be OK**

**Now, I wanna see my friends' faces
And share our time in the oasis
Oh I got friends,
In cool places.**
